## Screw System

### DESCRIPTION

The TIGERTRACK® screw system is delivered in single sterile packed for single use and consists of the following products:

**TIGER22 & TIGER29 self-compressive headless screws :**

- Compressive and cannulated screw
- Self-drilling and self-tapping screw

**TIGER18 & TIGER25 Snap-off threaded pins :**

- Snap-off threaded pin Ø1,8 and Ø2,5 mm
- Power drill insertion

**TIGERW Weil screws :**

- Self drilling with cortical stop
- By tilting the driver to the side, the screw will break-off at the groove
- Finish insertion with hexalobe screwdriver

TIGERTRACK® screws are manufactured in Ti-6Al-4V ELI titanium according to standards ISO 5832-3 / ASTM F 136. With the exception of the TIGER18 which is manufactured in a chrome-cobalt alloy according to ISO 5832-7.
